**Lakeside Construction Honored with
Development of the Year Award**

POWELL, OHIO – (Oct. 31, 2006) – Lakeside Construction – one of Central Ohio’s leading custom home builders – recently received the Development of the Year award for the Harbor Point at Heron Bay development as part of Building Industry Association’s (BIA) Industry Awards.

“We are extremely honored to receive this prestigious award,” said Matt Trucco, president of Lakeside Construction. “The Harbor Point development provides a unique living environment for Central Ohio residents and residents of the community are very happy with its results.”

In its second year, the BIA Building Industry Awards recognize past leaders and celebrate the present and strive to build the future together. Harbor Point at Heron Bay is an award winning resort-style waterfront village located at the southeast corner of Buckeye Lake, 25 minutes east of downtown Columbus. Breaking ground in 2005, Harbor Point has 69 units including two-story, Cape Cod and ranch-style condos. The atmosphere and amenities replicate the coastal resort architecture that is found along the east coast from Maine to South Carolina. Site amenities include swimming pool, tennis and basketball courts, walking trails and boat slips for each unit on the private inlet. Creating resort-style living, Lakeside Construction is currently constructing two developments at Heron Bay – Harbor Point and Vista Point.

Lakeside Construction has also been selected to build the BIA Foundation House for the 2007 BIA Parade of Homes. For more information about these communities, visit www.lakeside-construction.net or call 888-573-0987.
